

Aman Malik

Front-End Developer

Faridabad, Haryana ,121004 • [amanmalik0135@gmail](mailto:amanmalik0135@gmail.com) • 9990940035 [LinkedIn](#) | [Portfolio](#)

Professional Summary : Front-End Developer

Enthusiastic and self-motivated **Front-End Developer** with a strong foundation in **HTML5, CSS3, JavaScript (ES6+), and React.js**, and a genuine passion for crafting clean, responsive, and user-friendly web interfaces. Armed with a **B.Tech in Electronics and Communication Engineering**, I bring a solid technical background along with creative problem-solving abilities. Proficient in modern tools and frameworks like **Tailwind CSS, Bootstrap, Git, and Firebase**, with exposure to backend technologies like **Node.js, Express.js, and MongoDB**. I thrive in collaborative environments, stay curious about emerging web technologies, and am eager to contribute innovative ideas and energy to forward-thinking development teams.

Education

J.C.BOSE University of Sciences and Technology

B.TECH (ECE)

CGPA – 7.1

2019 - 2023

SKILLS

Programming Languages: HTML5, CSS3, JavaScript (ES6+)

Front-End Frameworks & Libraries: React.js, Redux, Tailwind CSS, Bootstrap

Tools & Technologies: Git, GitHub, VS Code, NPM, Webpack

Backend & Full-Stack Exposure: Node.js, Express.js, RESTful APIs

Databases: MongoDB

Core Competencies: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Responsive Web Design, Cross-Browser Compatibility, UI/UX Design Principles, Analytical and Problem-Solving Skills

Projects

Portfolio Website | [Link](#)

Tech Stack: React.js, Framer Motion, Tailwind CSS, Vercel

- Built a **personal portfolio website** to showcase projects and skills with a modern, responsive design.
- Implemented **smooth animations and transitions** using Framer Motion to enhance user experience.
- Designed a **mobile-first UI** with Tailwind CSS, ensuring accessibility and cross-device compatibility.
- Deployed the website on **Vercel** for seamless hosting and fast performance.

Weather App | [Link](#)

Tech Stack: React.js, JavaScript, CSS, OpenWeatherMap API, Vercel

- Built a responsive single-page **weather application** using **React.js** that displays real-time weather data based on user input.
- Integrated **OpenWeatherMap API** to fetch current weather conditions such as temperature, humidity, and weather icons.
- Utilized **React hooks** (useState, useEffect) for state management and asynchronous data fetching.

- Designed a clean and mobile-friendly UI using **CSS3**, ensuring cross-device compatibility.
- Deployed the application on **Vercel** for fast and seamless hosting.

Finance Tracker || [Link](#)

Tech Stack: React.js, JavaScript, CSS, Firebase , Vercel

- Designed and developed a responsive web platform to record, categorize, and analyze financial transactions.
- Implemented dynamic tables with sorting by date and amount, tag-based filtering, and search functionality for fast data retrieval.
- Built features to add income and expenses, track real-time balances, and visualize trends with interactive graphs.
- Enabled CSV import and export to streamline bulk transaction management.
- Integrated user authentication flows, loading states, and a clean user interface to enhance user experience.

Certifications/Courses

MERN Full Stack Development Certification — AccioJob

Certified in building modern web applications using: - ●

Frontend: HTML, CSS, JavaScript, React.js, Redux

- **Backend:** Node.js, Express.js
- Learned REST APIs, state management and integration of frontend-backend systems.
